MORNING MEETING ACTION ITEM

TO: DD/S

\*\*\*

TO: Executive Director-Comptroller

Inquiries were initiated in a number of areas, specifically with the Office of Finance, in an attempt to identify this item of information. We have been unable to do so and cannot find the \$1,000 cited. First, we do not know what fiscal year is involved and to our knowledge a \$1,000 item has not appeared in any submission to the Congress. It would appear if this statement is correct that this could be a report by some organization such as GSA which expended this amount of money in some way for CIA support. We still, however, have not been able to locate the item and propose not to further investigate as the chances of identifying this with this meager information are quite remote.
